The Woody Pet Product Line

January 2007

Woody Pet Professional Animal Bedding (30 lb.)

The Ultimate Horse Bedding - Used by professional trainers, breeders and veterinarians world-wide!

Woody Pet Professional Animal Bedding is not only the preferred horse stall bedding, but is also widely used and loved by cat, rabbit, ferret, guinea pig, hamster, parrot and bird owners as well as all other animals. Let's put it this way; if you own animals, Woody Pet Professional Animal Bedding will work for you.

Woody Pet bedding is three products in one: a moisture absorbent, that controls odors and expands into a fluffy soft bedding! The product is a dry granular material with very high absorbent capacity and absorbs very quickly. Absorbs 3 times its dry weight in moisture (urine) and expands to 4 times its original dry size. Made of pure softwood fiber with absolutely no additives and is sterile.

There are many horse stall benefits with the use of Woody Pet Bedding, such as: Reduces flies; Reduces waste; Great for foaling; Extreme absorbency; Helps to reduce hoof diseases; Reduces ammonia odor; Environmentally friendly; Reduces allergy symptoms; Reduces stall cleaning time; Reduces respiratory problems; 100% biodegradable; All animals stay cleaner and healthier; and it is not necessary to strip Woody Pet Bedded stalls every one or two weeks as it is with shavings, straw or sawdust. Many Woody Pet customers strip their stalls every five – six months, some even longer. On average, one pallet will last one horse in one stall for one year.

Available through Woody Pet Dealers and Retailers only.

Woody Pet All Purpose Litter & Animal Bedding (15 lb)

Our All Purpose Litter & Bedding is very popular with Pet Owners and Animal Breeders of all denominations. It offers the same odor and moisture absorption qualities as our Woody Pet Animal Bedding, in a smaller package for customers that do not have the storage space for the larger bags. The odor & urine absorption is unsurpassed as compared with other products in the market place, and being the "preferred choice" by cat owners and small animal rescue centers, as well as owners of large bird cages across North America. In cat litter boxes, Woody Pet absorbs more odor causing liquids and lasts longer. Cat owners have said, "Scooping the solids daily, we only replace the litter every 14-21 days and there is NO ODOR." Because of the high compaction, Woody Pet has up to 400% more volume and will absorb up to 6 times more than most other litter & bedding products, making Woody Pet Bedding more economical for the consumer. Available through Woody Pet Dealers and Retailers only.

When discarding used Woody Pet from litter trays & small animal areas, it can be flushed in small amounts. For litter boxes and cages; start with 1/2 - 3/4 of an inch as it will swell 3 – 4 times in depth.

The Woody Pet "Green Machine" (power bedding sifter)

Cleaning stalls with our Green Machine "Sifting Machine" went through a two year evaluation test with JOHN LYONS at his ranch in Colorado. Perfect Horse Magazine published a review in the December 1999 issue.

"...we tested this product extensively and found that using it saved time, effort and shavings...we found the dirtier the stall, the more you see the advantage over hand-picking. We found we ended up with a cleaner stall..."

The Green Machine is an electric power bedding sifter designed especially to separate manure from Woody Pet or other fine particle bedding. The Green Machine is much appreciated by customers that have more than a few stalls to clean daily. This electric bedding sifter is easily maneuvered around stalls and sports a 1/2 x 1 inch diamond grid, vibrating sifting screen. The Green Machine is 165 lbs. and the dimensions are: 70" x 26" x 9". Some assembly required.

Available through dealers and directly from Woody Pet via courier.

Fine-Tines “Original” Stall Fork

The original deep basket stall fork designed for use with Woody Pet and sawdust bedding. Having a stall fork with 30 tines spaced at 5/16" apart helps you muck out your stalls faster and cleaner. Fine-Tines Stall Forks are shipped via UPS and are normally delivered within seven days. Available through Dealers and directly from Woody Pet via courier.

- * 17" wide basket with 30 tines spaced at 5/16".
- * Larger basket holds twice the "JR's" volume.
- * Removes the small broken manure from 5/16" and larger.
- * An absolute must for stalls bedded with Woody Pet Bedding, sawdust or pelleted bedding.
- * Angled basket makes sifting easier.
- * Polycarbonate structure & design resists breakage and will withstand extreme abuse and weather conditions.
- * Designed by a horseman for horse lovers that understands the mechanics and time spent in cleaning out stalls and pens.
- * Great for picking the small, messy bits left behind from using 'standard forks'.
- * Saves money by preserving more usable bedding.
- * Finish cleaning sooner – plan for more riding time!
- * Weight is 3.5 lbs.

Fine-Tines “Junior” Stall Fork

As popular as our Fine-Tines Stall Forks are, some customers have informed us that they would like to see a stall fork designed for pelleted and sawdust bedding with a lighter, smaller basket than our regular Fine-Tines Fork. When our customers talk, we listen! Introducing the "JUNIOR" This stall picker is ideal for all stall cleaners using pelleted and sawdust bedding. Available through Dealers and directly from Woody Pet via courier.

- * All the features of the original Fine Tine Fork plus:
- * The basket weighs about 1 ¼ lbs., is under 13 ½ wide and has 22 tines spaced at 3/8".
- * These close tines will ensure that the "small stuff" is removed from your bedding.
- * Smaller basket design makes for lighter picking and nugget hunting.
- * Ideal for children helping at muck-out time.

Woody Pet Horse Stall Deodorizer

Woody Pet Horse Stall Deodorizer is granulated (not powdery) 100% Zeolite. Zeolite is a non-toxic, natural, unscented volcanic mineral which is absolutely environmentally safe. Our stall deodorizer does not dry, crack or burn animal hooves like lime will. This product will dehydrate any bacteria that is in its presence. Not only is our stall deodorizer a great odor absorbent in stalls, paddocks, poultry houses etc, it is also great for stinky spills on carpets, driveway spills or even removes the worst odors from sports bags or gym lockers. Anywhere there is a smelly problem this product should be applied. If it cannot be applied directly, fill a stocking and hang or lay it in the area.

Woody Pet Horse Stall Deodorizer is granulated (not powdery) 100% zeolite. Zeolite is a non-toxic, natural, unscented volcanic mineral which is absolutely environmentally safe. What makes zeolites unusual is that they are the only known negatively charged mineral. What this means is that zeolites can naturally absorb pollutants from the air! Under a microscope, these zeolites look like crystals with a web of honeycomb chambers. It is within these chambers that the zeolites can absorb and hold pollutants. Because the zeolites are naturally "charged", they act like magnets to absorb and hold these pollutants. Due to their unique structure, both liquids and odors can be absorbed. If this were not enough, these zeolites never break down. They keep working over and over again. These zeolites are so safe that they are used in animal feeds and coffee creamers! We use food grade zeolites that can be used for all animals, even newborns. In fact, newborns or sensitive animals will benefit from the reduction of toxic odors and flies

Available through Woody Pet Dealers & Retailers only.

Woody Pet Professional Hoof Oil

Woody Pet Professional Hoof Oil was developed by a trainer that wanted a hoof oil that solved hoof problems in a much shorter time than other products, easily and effectively applied. This super-penetrating oil goes right into the hoof immediately and leaves no greasy, wax build-up. Ideal for dry or cracked hooves. Farriers love Woody Pet Professional Hoof Oil because it

thickens and strengthens the hoof wall. And, once the horseshoes are on, they stay on! Available through Dealers and directly from Woody Pet via courier.

Ingredients : Fish Oil, Pine Tar, Peanut Oil, Vitamin "A", Vitamin "B", Vitamin "D", Vitamin "E".

Available in 2 sizes: 1 Quart bottle with built-in applicator brush or 1 Gallon refill jug

StableComfort - Equine Stall Mattress Flooring Kits

Kiss your bedding expenses goodbye!

The Equine StableComfort stall mattress flooring is a two component system that supplies unsurpassed comfort for your stalled animals. The multi-celled mattresses supply the cushion while the one piece top cover that is secured to the stall walls gives you a seamless floor that creates many benefits never before available from just one product. The Equine StableComfort stall flooring is available for 12' x 12' stalls.

Equine StableComfort stall flooring is a do-it-yourself installation kit which can be purchased through dealers or directly from Woody Pet. Single kits may be available through dealers. Woody Pet ships only in sets of 2 Kits for two 12' x 12' stalls. Equine StableComfort stall flooring kits can easily be trimmed to fit smaller stall areas. Delivery quoted prices are based on the number of stall kits ordered, coupled with shipping costs spread over the order.

Each pallet contains two stall kits for two 12' x 12' stalls.

*Includes: 2 pieces Top Cover 12' – 6" x 12' – 4"

Each individually wrapped with 10 Edge Strips 10' long inside (5 each)

26 mats – packed on one pallet.

Each mat is 40" x 48" and weighs 80 lbs. each.

Note: Each 12' x 12' StableComfort stall mattress kit weighs 1,100 pounds.

StableComfort Stall Mattress Kits Warranty: 5 year top cover; 7 year mattress pads

We must ask all of our dealers to use a bit of common sense. For example, we know we have problems with a draft horse pulling shoe also known as a scotch bottom shoe. Most road caulks and race studs seem to be going OK but we think it only fair to tell customers they will not get the same life span as though they didn't have these caulks. Normal horse shoes that are typically used have not posed any difficulty with StableComfort stall mattresses or top covers. The mattresses have a warranty of 7 years. This is as long as they are covered by a top cover that does not have holes in it. We do not cover any damages caused by tractors, carelessness, or installation. Video / CD tapes and written instruction for installation are provided.

For further information in that of marketing material, video tapes and StableComfort manual for installation, kindly call toll free to our customer service personnel or email to our sales department: sales@woodypet.com or sales manager:

gord@woodypet.com

Woody Pet - Packaged Softwood Shavings (Bales)

We have added Woody Pet bales of Softwood Shavings of premium quality to our product line to better serve the consumer with a greater choice of bedding for the Equine Market and as well, the Exotic Animal Breeder and Pet Lovers.

Only Lodge pole Pine and Spruce pass through our planer mills. Our shavings contain no toxic resins or oils, granulated sawdust or wood splinters. Woody Pet Products does not use recycled wood products. Our shavings are a small to medium, white, kiln dried flake that are extremely absorbent, consistency in that of a small- medium soft white flake, and uniform in flat texture, size and color and has been dust extracted to ensure the maximum in quality and safety for your animals.

Available in 2 sizes – both sizes are stacked 35 bales per skid

- 3 cu.ft. compressed bales which expand to at least 8 cu.ft. in volume

- 3 cu.ft. compressed bales which expand to at least 12 cu.

[Also Available from Woody Pet](#)

Northern Lights Fire Fuels – Wood Pellet Fuel

www.FireFuels.com

is a premium grade residential pellet heating fuel. Suitable for use in any pellet fuel burning stove or fireplace insert. High heat output with low ash content. Available through Dealers & Retailers only.

MBC Magnum Bedding Co – Softwood Pellet Horse Bedding

www.MagnumBedding.com

Woody Pet is currently the exclusive US distributor for these two brands and we are pleased to give all our customers the opportunity to add these new items to their product mix.

“Magnum” brand horse bedding was very active in select market areas during 2002-2004. The original company then had difficulties with distribution and the product fell out of availability for some time. The brand is now being re-launched. MBC Magnum Bedding Co’s – *Softwood Pellet Horse Bedding* is a wood based bedding that is a full wood pellet in form and aimed exclusively at the sawdust and shavings and wood chip market. MBC Magnum Bedding is offered in a 40 lb. bag and are shipped 60 bags per pallet. Available through Dealers & Retailers and also direct from Woody Pet (FTL quantity only).

Available directly from Woody Pet by courier

Business Opportunity

After trying Woody Pet Products you may be interested in becoming a Woody Pet Independent Dealer. We welcome inquiries. Most Independent Dealers are end-users and have discovered the many benefits available to them. We work very strongly with them in a number of ways to enhance presence of Woody Pet Products in the marketplace, while our Independent Dealers enjoy a rewarding return on their time and investment. Many areas are still available – please call or email again for further information. Dealers should be prepared to purchase in full-truck-load quantities and resell both by the bag and by the pallet (ton). Adequate storage space and unloading capability is required.

Please email or call our toll free number to our customer service & sales department if you have any questions or concerns at: 1-888-535-9816 or sales@woodypet.com

Woody Pet Professional Animal Bedding - Usage Guide

On average, one pallet (65/75 - 30 lb. bags) will last one horse in one stall for one year.

Compared to using bagged shavings in horse stalls; Woody Pet Bedding will not only reduce bedding expenses and control ammonia odors but will also dramatically cut stall cleaning time and waste pile size.

It is not necessary to strip Woody Pet bedded stalls every one or two weeks as it is with shavings, straw or sawdust. Many Woody Pet customers strip their stalls every two - six months, some even longer. Diligent urine patch removal ensures Woody Pet Bedding longevity in your stalls.

There are two ways to activate Woody Pet Bedding in horse stalls. One way is to add water right from the get-go. This will make it fluff up into a cushy bed immediately. Some customers mix the urine spots back into the unexpanded WP Bedding. Either way you do it, start removing the urine spots once the bedding has been activated (fluffed up) throughout the stall. Replenish daily or weekly.

Woody Pet Bedding can be spread on your fields with regular sawdust and shavings. This is the most environmentally friendly type of bedding you can spread on your fields. You will find that it breaks down and biodegrades much quicker than regular sawdust & shavings as all of the naturally existing oils tars and resins have been removed.

The results of composting with Woody Pet Bedding are excellent. Having no oils tars and resins in WP Bedding creates a PH level in the finished compost that is incredible for gardens and top soil.

Woody Pet Products Inc introduced this revolutionary stall bedding into the equine market. Do not be fooled by competitors offering similar looking products. If it is not in a Woody Pet bag, it is not and will not perform like Woody Pet Professional Animal Bedding.

Woody Pet Professional Animal Bedding is not only becoming an extremely popular horse stall bedding but is also widely used and loved by cat, rabbit, ferret, guinea pig, hamster, mouse, rat owners as well as all other animals. Let's put it this way; if you own animals, Woody Pet Professional Animal Bedding will work for you in controlling ammonia odors and offering an affordable, healthy, easy to clean, environmentally friendly, bedding & litter.

Most animals with allergies to pine, cedar or other specific wood species will show an amazing improvement with the associated skin problems and their respiratory system two to seven days after switching to Woody Pet Bedding in their stalls, cages and litter boxes. Woody Pet Bedding consists of 100% natural softwood (fir, spruce & pine) fiber with absolutely no additives. Woody Pet Bedding has up to 99% of the dangerous aromatic hydrocarbons removed. Eliminating the aromatic hydrocarbons automatically creates a cleaner, healthier environment for you & your animals. It is these aromatic hydrocarbons which aggravate skin & respiratory allergies. Many animals have allergies to the natural ingredients in pine wood fiber. These animals should not show any of these pine allergy symptoms when on Woody Pet Bedding. It is environmentally friendly and does decompose faster than shavings as up to 99% of the tars, oils, resins & toxins have been removed. When discarding used Woody Pet from litter trays & small animal areas, it can be flushed in small amounts.
